Summary

A remix of the awesome safe lock commander deck box but with an additional dice box for storage.

I took the original design and added a larger dice box storage on the bottom of the deck box. I felt it was necessary for people who have a lot of dice to store and want a large "all-in one" solution for their commander deck. The original design is amazing and I'm grateful that Gimpelginster put so much work into it. For assembly, go to the original model and you will see the detailed instructions he has provided. Here's the link: <https://www.printables.com/model/74872-safe-lock-commander-deck-box>

The magnets I build the design around are here: https://www.amazon.com/gp/product/B098WP6V4B/ref=ppx_yo_dt_b_search_asin_image?ie=UTF8&psc=1

Any magnets that are 0.47" x 0.12" will work, just make sure they are strong enough to hold the dice box. Having 8 magnets makes the bottom

portion super strong, so I don't see any issues with the dice box falling off, especially if you use neodymium magnets.
