updated 24. 11. 2022 | published 24. 11. 2022

### Summary

E3D Buggy modification. It's a spider toothpick holder. He's heckin' mad!

Tags: [spider](#) [toothpickholder](#) [e3dbuggy](#)

This is a modification of the E3DBuggy.

I've printed this on an Ender 3 pro.

You need supports to print this model.

As usual, I'm including a step file so you can modify at your leisure.

### This remix is based on
