Summary

wall mount for hls36w

[Household](#) > [Living Room](#)

Adjusted to make the mounting holes tighter so it doesn't sag. I had to make it wider to fit this sound bar with spacing for the mounts of 10.25 in. Printed it with the mount holes pointing up and rotated 45 degrees (corner to corner) to fit my printer. Mounted it to a scrap piece of wood so I could hit the studs.
