Light weight Garmin inReach mini clip, designed from the ground up, to be as light, yet sturdy as possible. Designed to be used with the lanyard attachment, and supplied hex screw.

Confirmed that this also fits the inReach mini 2.

Total weight (printed in PLA): 3 grams

Update: v4 is a bit more substantial, and a little more user friendly, enjoy!

Edit: added a vertical clip to accompany this thing, found [here](#).

Constructive feedback welcome!
