### Summary

I made this two part dryer for our Ziploc bags over our sink. Printed in PLA with supports for the screw mounts.

Tags: [kitchen](#) [dryer](#) [ziploc](#)

I needed to make a bag holder for our plastic bags.

I came up with this design and we really like it!

It simply lets the Ziploc bags hang off of the fins over our sink and the bags dry very fast.

The fins are staggered so that you can lay the bags flat or they can hang next to each other.

Let me know what you think! I'd really appreciate any modifications or improvements.
