Simple hand saw tooth protection. It also protects your hands from injury. Use rubber bands for better fixation.

You can easily modify the model, I am attaching the STEP file and also a link directly to OnShape, where I created the model, link below.

Print instructions:

Printing the model does not require any special settings. Printing material PETG.

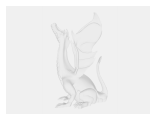

Note:

Please don't forget to leave a rating or a comment. Feedback is important for me Thank you very much.

Happy printing!
