I really like the "iPhone 12 mini MagSafe Stand" by dreamseed on thingiverse. I already printed 2 of these that fit apple brand sized wireless chargers. I had one 3rd party charger that is different dimensions so made a remix to fit this charger (60.5 mm diameter and 11.3 mm depth).

build came out great, unfortunately my tolerance is a bit too close and it cracked a little bit when I gave it one extra push to make the wireless charger a flush fit. still works fine, just aesthetic, maybe I will print it again one day and fix it. Probably will fit very nice if you scale up +.5%

This remix is based on
