updated 27. 11. 2022 | published 27. 11. 2022

Summary

I wanted to have actively cooled Einsy, while having high temparture in enclosure

Tags: [enclosure](#) [cool](#) [einsy](#) [enclosed](#)

Einsy part is no longer supportless and you will need 8 pcs of M3 x 30 bolts. Swap is not easy, but doable withour disconnecting the board

This remix is based on

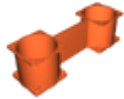

Prusa Mk3 Einsy fan
