updated 28. 11. 2022 | published 28. 11. 2022

Summary

Hook to store your towel while in the shower. Much tidier than using suckers on the glass.

This single and double hook is designed for 8mm shower glass. Due to the angle of the glass hook, it should pop on and hold itself in place reducing sliding from side to side.

I started with a single hook design and my wife wanted a double hook to hang hair towel and body towel on the same hook easily.
