Tool Head holder for Snapmaker 2.0 tool heads  
4M nuts can be inserted for mounting  
Dust Proof  
Lined with 3mm felt  
Universal fit for all 3 heads  
Felt cutting templates and drill template included

I printed the storage box base with supports for the nut slots.

I wanted to mount the tool heads inside the enclosure so I needed a dust proof storage option. I also wanted to line the inside with felt to protect it from scratches especially the camera on the laser.
