Note, this frame works with Instax "SQUARE" film. This stuff: <https://tinyurl.com/42xjvrj>

Drew up this quick little frame as a giveaway for friends who came to a party. We put out a Fuji Instax camera and I wanted them to be able to take the photos home with a cool keepsake.

Print at 100% infill for best results (the base benefits from the weight).

Works in both PLA and PETG.
