This is a "stencil" of a 7" screen (155mm x 89mm) This can be used to help you mark up a project if you need to cut out a slot for a 7" screen.

Just place the printed stl on your project, take out a pencil, and trace the interior square to get a perfect 155mm x 89mm square; Which you can then cut out and mount your 7" screen to.
