Whether you need them or not, they're here.

Enjoy.

These are gas tags which I designed, printed, and used.

The Sketchup file (Gas Tags.skp) is included in case you want to make modifications or create a new tag.

Naming:

(V.2) versions are curved and the other ones have pointed corners.

Update 06/02/21:

Added (V.3) version. *(V.3) version's tag text is shorter compared to the other versions.

Original tag text was 7mm high, now it's 2mm high.

(It looks better, it's still easy to read and yes, it's still curved).*
