Discard piles can be a pain when the cards are sleeved and you start stacking more than 50 at a time. So, this is a simple wooden box-shaped card tray suitably themed for games like Everdell and Wingspan.

They fit American Standard card sleeves. The tray measures 68.5 x 96mm, leaving a few millimetres room. The taller tray is 70mm, the shorter one is 39mm.

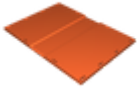

Print in PLA or PETG. They're made to snap fit together. There's some tolerance but it's pretty tight so they stay put.
