Summary

If you can't screw the holder in, use this to attach by cabledties

[Household](#) > [Outdoor & Garden](#)

Tags: [remix](#) [birdfeeder](#) [truefruits](#)

I edited the holder bracket for the original model to be able to use cable ties to attach it to my balcony. Remix done in Prusaslicer, as PS does not really save all the modifications as STL, i had to include the 3mf.

For the holder itself visit the "Bird feeder for 250ml True Fruits Bottle" Original modell. That worked really nice.

The idea was, i filled the existing holes with a modifier and created channels for the ziptie with toruses. Worked quite well.

Lets see if the birds like it.

This remix is based on

Bird feeder for 250ml True Fruits Bottle
