updated 27. 11. 2022 | published 27. 11. 2022

Summary

A remix of the very nicely designed spool holder that ships with the Prusa Mini+, but extended to fit wide spools

[extended](#) [recycled](#)

This model takes Prusa's well-designed spool holder and simply adds extended crossbars so that it can be used to accommodate larger (wider) spools, like those used for Prusment recycled PET. Should also accommodate many of the wider spools used for 2-5kg filament rolls.

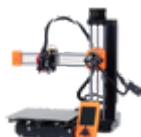

You need 2 of these parts, and they replace the crossbars in the original (linked) model.

Just got there and scroll to the “spool holder” folder for the other printable parts.

Ultra simple part. I needed them, so I made them. Now you can have them too. Yaaay.

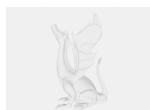

This remix is based on
