### Summary

If you use metric dust collectors or vacuums, you know how it is. This takes both 27mm and 36mm nozzle.

Tags: [dustcollector](#) [kregjig](#)

If you use either the 27mm or 36mm hoses for your dust vacuums this adapter lets you use either. The stubby design is more direct and I've had better chip extraction compared to the 90 degree design of the original Kreg Jig.

Please remember to include supports on the base plate for printing.
