updated 12. 3. 2023 | published 12. 3. 2023

Summary

This ramp is capable of launching Hot Wheels Cars over couches, other childrens and through windows! Nuff said.

This was designed for my son Norm and it works awesome! connects to Hot Wheels track with adapter. Print it on its side!!! Any plastic will do. Layer height is up to you. Have fun and share any pics or stories please. My son has spent weeks playing with this ramp almost every day.

Cheers!

Update: V2 is up, connector can now be removed. This version is slightly taller than the original. Enjoy!
