Cup holder insert with tray for those road trips where you dont have anywhere to put food down or use tray for what ever.

this fits in my Toyota Tundra , a friends newer Honda CRV a newer Jeep and a newer Chevy truck.

Bottom of cup is 76mm , top is 85mm.

Print with tray flat and the cup i printed upside down with support so the bottom edge of the lip prints clean to glue it to the tray.

i use ASA as it will be in a hot vehicle in the summer months.
