### Summary

LG Monitor VESA 100 for an LG 35WN65C monitor

[Gadgets](#) > [Computers](#)

I used an LG 35WN65C as an example when creating this mount. It may work for other LG monitors as well. I printed it 'vertically' so the shear force wasn't aligned with the printed layers, and used 4 perimeters for strength.

There are two parts, and printed 'vertically' the mounting holes are along the X or Y axis.
