Easy to print and fun to make!

Perfect for your candy table, coffee table or any corner of your house

Specially designed to fit in the buildplate of any mid size printer, like ender 3 or similar.

The base is one piece. and every letter and details are separated files so you can print it in different colors with a single nozzle.

Designed two styles for every "O". so you can choose what you like.

- First "O": choose between santa claus or tree ornament
- Second "O": choose between snowman face or snowman body
- Third "O": choose between reindeer or christmas elf

just have to scrape or sand the base of each letter a little to make it fit.
And if they are a little loose, use some glue to hold them
