Summary

2part version to fit Prusa MINI

[Hobby & Makers](#) > [Organizers](#)

Tags: [caliperholder](#) [gridfinity](#)

Couldn't fit the Model on my Prusa Mini so I split it. Joint is pressfit and works great.

Should have tested my caliper first, because it didn't fit well. But that was nothing a good old soldering iron could fix

I Printed in PLA, with a 0.6 nozzle and 0.35 layerheight and 10% infill
