Summary

Remix of an amazing design to better suit my needs.

[Gadgets](#) > [Other Gadgets](#)

Tags: [case](#) [zero](#) [remix](#) [insert](#) [flipper](#) [flipperzero](#)

I remixed the amazing <https://www.printables.com/model/278838-flipper-zero-hard-case-insert-for-wifi-dev-board-v>

I wanted to be able to store a small USB A to C adapter (the ones you get from Google Pixels). I press-fit in 3 2 x 6 mm magnets as pictured. I also added a micro SD card slot at the top and removed the overhanging portion.

Printed in PETG at .2mm layer height with 20% infill to make an interesting pattern in the clear filament.

This remix is based on

Flipper Zero Hard Case Insert for Wifi Dev Board V1 (w/ Case)
