I dont want my remote to wander around the room. So i made a holder to fit the wall and the edge my bed above the pillow.

I added the both files, which can easily be altered.

Both were printed upside down with no supports.

The name on the pictures is wrong, but i changed them in the stl file.

I also removed the screwholes so you can make your own.

Print Settings

Printer Brand:

Creality

Printer:

Ender 3

Rafts:

No

Supports:

No

Resolution:

0.28

Filament:

123-3d PLA

white

Notes:

0.28 is the low quality in cura.
