updated 28. 11. 2022 | published 28. 11. 2022

### Summary

I needed a box to store all my micro sd cards I'm using for my 3D printers and raspberry pies.

[usbholder](#) [photography](#)

I needed a box to store all my micro sd cards I'm using for my 3D printers and raspberry pies... Also I needed a place to store a sd card adapter and a USB sd reader. Now I can store 8 micro SD cards, a sd card adapter and an usb sd card reader

I made 2 version. One with rounded corners... and one with sharp corners.

Let me know what you think in the comments, and feel free to show your prints if you made one.

enjoy
