4mm thick to ensure stability

The model will fit on Prusa Mini+ (180x180)
Feel free to size it up or down as you wish

The best quality is achieved if printed face down

Print: 0.2mm

Nozzle: 0.4mm

Support: Not needed

Brim: Not needed

Infill: Not needed, but I'd suggest going with 15% to ensure sturdiness

A tip: If you want to get this print easily off your heat bed, place the heat bed with the printed model in the freezer for 10 to 30 mins. Take it out, and it should pop off quite easily :)
