Gingerbread Star Wars TIE Fighter Kit Card can also be used as a Christmas Tree ornament. Solid wings or one with a “bite” are available to suit your preference. Also contains a version with a ring for hanging and without the ring.

The double wings body allows you to print 4 wings and place them back to back for icing goodness on all sides.

NOTICE: if you're printing double “Bite” wings remember to mirror one of them.

- A filament swap can be done around 1.6mm up to add some detail to the cards. Check your slicer for the proper swap height.

- Individual parts are included so you can print the model without the sprue to save plastic if desired. Parts are now labeled with the letter from the instructions.
- A pdf of instructions is included to print and hand out with the cards if they are given as gifts or stocking stuffers.
- Good bed adhesion is a must for the details to print properly. A little glue stick for extra stick may be needed if you're having trouble.
- Z height may be adjusted slightly up or down if parts are too tight or too loose from your printer.
