This is some new bike handles I designed based off of my old version(which is classic in downloads). Now there are 12 designs you can choose from. 6 are thin and 6 are normal sized. This is for bikes with 7/8" handlebars which seems very universal but you may want to double check before printing. If printing in tpu you may want to scale down a little for a tighter fit. Someone suggested 95% along X and Y.

Notes:

Thin grips are best printed in TPU
if not using flexible for a grip it will need to be soaked in warm water directly before putting it on the bike.
ABS yellows overtime outdoors
