Tags: upgrade spool 3d filament spoolholder mars neptune friction

Update 05.05.2023:

I added a solid version of the design so you can basically choose your wall thickness by setting the perimeters as desired or print solid resp. with sufficient infill if you don't trust your filament ;D

Additional Spool Holder for the Elegoo Neptune 3 Pro with great fit direct after printing.

Prints great with .28mm layer height and 3 perimeters
