Someone requested an xbox controller version of a phone mount I made for the Stadia controller (thing:4008153) so here it is.

Confirmed that it does work with an elite series 1 and series 2 controller with paddles (special thanks to Poofs_The_Mutt for his make) as well as the the new Xbox Series X/S controllers (thanks to LearnNewTech).

You can add support blocker to the controller clip portion as the USB and Sync button ports print just fine without support but you do need supports for the phone mounting area.

Print Settings

Printer Brand:

Prusa

Printer:

i3 MK3

Rafts:

No

Supports:

Yes

Resolution:

0.3 or higher

Infill:

doesn't matter

Filament: hatchbox PLA blue/orange

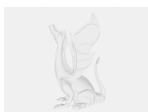

Category: Video Games
