This is a second remix from the amazing Universal Phone Tripod mount by jakejake, as well as my first remix(tripod phone mount, no nut is needed). I printed it using Polycarbonate carbon fiber(PC-CF) as the temperature inside the car under sunlight in the summer can reach 70-80C, and PLA is going to deform.

I also printed it with Bambu Lab X1 Carbon featured in my latest video:

Bambu Lab X1 review Part 1: <https://youtu.be/jqqVR6Mlnnk>

Bambu Lab X1 review Part 2: <https://youtu.be/ohqj1CfuSvo>
