Summary

Tripod mount for rifle

[Sports & Outdoor](#) > [Outdoor Sports](#)

Tags: [hunting](#) [rifle](#) [tikka](#) [tripod](#) [pigsaddle](#) [hogsaddle](#)

Tripod mount inspired by hog saddle.

I printed it with PETG and 100% and have printed a couple and all of them are still whole after a couple of years hunting and shooting.

In the pictures it's the v1 version that now has some minor changes for easier assembly and adapted for a threaded bar.

BOM

- Threaded bar (M5) 100 mm
- 5 x M6 nut
- 2 x M5 bolts (40 mm)
- 1 x 1/4-20 UNC nut
- 1 x 3/8-16 UNC nut
- Mouse mat or similar

TODO:

Middle_lower for heated insert nut

Spring or slot to make it open by it self when removing the rifle.
