Summary

This is a remix of a remix of a remix. The original version from "Verohomie" on thingiverse used a threaded rod.

Tags: rewinder winder

Updated Threaded Rod Model to remove extra shell which was causing slicing issues for some. New “v2” version will work with the original Nut but I added a v2 Nut just in case there is confusion.

This is a remix of a remix of a remix. The original version from "Verohomie" on thingiverse used a threaded rod.

This fits over a "standard" hex bit in your drill on the threaded rod end and can be used to wind or rewind your spools.

Print instructions

Rafts:
No

Supports:
No

Nozzle:
.4

Resolution:
.2

Perimeters:
3 (Increase if you like. 4 or more would hold up to more abuse)

Infill:
10% Gyroid (Increase if you like. 25% would hold up to more abuse)

This remix is based on

Spool Winder
