updated 21. 1. 2023 | published 21. 1. 2023

Summary

I didn't quite like the models available so I tried my best to make it as accurate as possible.

[kitagawa](#)

First attempt at making a 3d printable mask, will probably upload a modified version later...

Make sure to scale it to around 1000%, 3ds max measurements troll.

The renders aren't using any displacement maps, you will get the shape as is, hope this helps while painting!

Topology is nasty tho, still have to work on it.

Let me know if there is something you'd like me to change!
