[28mm](#) [diorama](#)

Lantern for your illumination project. It's designed to fit a 5mm led light inside and allows to lead wire out. Glue hooks to a wall or ceiling of your tabletop/diorama house.

If it doesn't stick to bed due to small size, print with a brim. No supports required.

Enjoy!

Hey everyone!

I wanted to share some exciting news with you - my first Kickstarter campaign for Gracewindale: The Gatehouse 3D Printable Scenery is now

live! We're making high-quality, detailed scenery for tabletop games, and we think you'll love it.

During the campaign, we're offering a special 50% discount on our models, so it's the perfect time to grab some amazing scenery for your next game night. Our project features the Gatehouse model, which you can download and print yourself, as well as an add-on with digital maps (PDF) that you can use for your games.

We're a small team of enthusiasts who are passionate about making the best gaming experiences for our community, and we can't do it without your support. If you're a fan of tabletop gaming, or just love supporting creative projects, we'd be so grateful if you could check out our campaign and show us some love.

Thank you for taking the time to read this, and feel free to ask me any questions you might have. Here's the link to our Kickstarter campaign if you want to check it out: [[Kickstarter - Gatehouse](#)]
