## Summary

This is a collapsing sword designed to be printed as one part

Toys & Games > Other Toys & Games

This is a collapsing sword designed to be printed as one part. Its only 140mm high when printed but expands to over 860mm in total length!

This version of the Jian prints complete all as one part.
The Replaceable Blade Version is available to my Clubs members.
Supports are not required, for best results use a .4mm nozzle. Find detailed instructions on how to print collapsing swords on my website. If this is your first time printing, I would suggest you try the test print first.
Here's a link to the silver and pink filament I used to make the sword.
**Support and Licensing**
If you would like to help support more free models or get permission to sell physical copies of my models, consider joining my Clubs Membership or using my Prusa Shop Affiliate.
