Another big part of my childhood. I was probably too young when I read this at a friend's place, who's brother had a lot of cool more mature comic books.

I've always loved the "chunky" look of the way Judge Dredd and the rest of the characters in AD2000's world were drawn.

Print instructions

Easy to print. No supports should be needed, but as always you need to exercise you own expertise with your own printer, since they are all different.
