I needed to mount headphones to the underside of my desk, so I remixed my old headphone hanger design to accommodate this new mounting requirement.

This model also contains infill modifiers around the screw/bolt holes to create a solid ring a little larger than a screw head. Hopefully this keeps the holder from cracking if it gets over tightened while mounting it.

Print instructions

These are the settings I used for my prints.

Resolution: 0.20mm Quality

Material: PETG

Supports: None

Infill: 15%
Brim: None
