A holder for your IKEA 365 lids. May suit others. It is designed to be fed from the side as well to fit shelves and not only drawers.

Due to large surface area, you should be careful printing on glass without adheseive or brim.

Printed in PLA with 18% infill.

Let me know if you have improvements or suggestions!

V2.0 Changes - Slightly lower height, and published multiple number of holders

V2.1 Changes - Created chamfer so feeding is easier.
