A simple rolling toy for your cat, kitten or child :)

You can choose between mouse or fish model (superstructure) and attach a universal print-in-place chassis to it.

Just clip the chassis into the animal - it will stay there without gluing. No supports are needed for printing.

Enjoy and have fun!

The animals are based on the mouse model by DDStarkey and the fish model by kennyd1gital. The chassis is a modified version of a great model from gringer.
