Great small gift idea for bike lovers or demo print for newcomers. Prints fast & Easy.

The ones in the pic are 0.4Lh. If you feel this is too small for your liking, feel free to modify scale in your slicer software.

This is very quick and easy print. Great way to consume the last meters of your roll of filament.

If you are looking for a similar key identifier for your fixie / singlespeed click [here](#)

If you are looking for a similar key identifier for your motorcycle / moped / scooter click [here](#)

If you'd like to support my work, leaving a ♥ **like** ♥ or even **buying me a coffee** ☕ goes a long way. I love creating and sharing my designs, but my Mk2.5s is getting old, and every bit of support helps.
