Wheel truing tool for bike mechanics designed for the needs of Gambian bike workshops, where getting a commercial jig is difficult.

Can be used to trim the front or rear wheel.

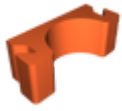

Print instructions

Prusament ASA, 0.3mm layer height, 100% infill.

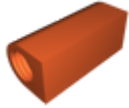

Print the threaded parts vertically for better quality and the attachment horizontally to increase the strength.

Glue the threaded part to the rubber band attachment. Attach to bike frame using the rubber band made of inner tube.
