A small and minimalistic bracket for mounting one of my powerstrips.

Same bracket will work for both sides.

Update:

22.04.2023 - Added drawing with some dimentions. The powerstrip I'm using is a little bit ‘fat around the belly’ The printed part is ~49mm at the top and bottom, and about 54.5mm in the middle. It's 41.1mm high.
