## Summary

Hydroponic Tower Base for mounting to a board

[Household](#) > [Outdoor & Garden](#)

Tags: [base](#) [hydroponics](#) [modularhydroponics](#)

This is a new base type for the Modular Hydroponic Tower. I designed this to mount to a 3/4" plywood board. I increased the width of the top for better stability and to make room for 4 screw's. The design is meant to be used with #8 x 3/4" screws. The depth of the tunnel extends past the inside board to allow water runoff without it touching the wood.
