This is a holder for the MTG Counters by Tonyyoungblood. With the new counter decks that came with New Capenna, i wanted some counters to make it easy to keep track, but with 40+ types of counters, i wanted an easy way to store them.

This is my first 3d model design, so completely open to tips and suggestions if you have improvements. Ill pick them up if time permits it!

This token holder was design to be used with the following tokens. <https://www.thingiverse.com/thing:1815081>
