### Summary

After making the Prusa Peeps Bunny I decided he needed some friends.

After the Prusa Peeps Bunny I decided to make a whole family of them with different glasses. So, here is the result; a bunny with round glasses (went granny mode on purpose) and some horn rimmed glasses (because I can).

No MMU needed. There is a pause in the print to change filament for the glasses.

A huge thank you to nerdyviews for the bunny model. And to Beums and Neolker for the glasses models. Be sure to check out their other models here on their printables pages.

NOTE: Made in PrusaSlicer 2.6.0 alpha5 for Prusa i3 MK3S+
