I remixed this tablet tripod mount and made the following changes:

- Increased the thread size on the post and nut for an easier fit.
- Redesigned the main post for horizontal printing without supports.
- Redesigned the clamp to match the changes on the post.

PrusaSlicer recommended print settings for the stand parts:

- Supports = None
- Layer height = Nut prints best at .20 layer height. The other parts are fine at 0.30
- Infill = 15% (Grid)

This remix is based on

Tablet /
Ipad
mount
for
Camera
Tripod.
1/4"
thread

Tablet / Ipad mount for Camera Tripod. 1/4" thread
