The Top and Bottom Lens Covers for the Einscan HX scanner are protective accessories designed to prevent the scanner's lens from becoming scratched or damaged. These covers are placed over the top and bottom of the scanner's lens to protect it from dust, debris, and accidental scratches. By using these covers, you can extend the lifespan of your scanner's lens and maintain the quality of your scans over time. It is recommended to use these covers whenever the scanner is not in use to ensure maximum protection for the lens.
