Summary

Another design of a poo slide, updated design to help prevent clogs

[3D Printers](#) > [Accessories](#)

Tags: [x1](#) [bambu](#) [bambulab](#) [bambulabx1carbon](#) [x1c](#) [p1p](#)
[bambup1p](#)

Was not happy with other designs I had found, I have created a few that needed help. This design is working the best and keeps the poo flowing!

Works on X1, X1 Carbon and P1P from BambuLab.

This remix is based on

Poop
Slide for
Bambu
Lab X1C
& P1P

Poop Slide for Bambu Lab X1C & P1P
