This is a mount for the rise garden hydroponic system. That allows you to easily setup an AC Infinity Cloud Ray Fan.

To assemble you simply remove the clip from the original mounting assembly, and screw on this piece in its place. This then mounts on the edge of your garden similar to the shelves that rise garden sells.

This prints well using a .4 nozzle and a .6 nozzle.

I used 4 walls perimeters and 50% infill on mine.
